EDUCATION

Vellore Institute of Technology Integrated M.Tech in Computer Science and Engineering (Cybersecurity)	July 2022 – Expected 2027 CGPA: 8.4
Class XII (Senior Secondary) Madhya Pradesh Board of Secondary Education	April 2020 - April 2022 Percentage: 84.4%
Class X (Secondary) Madhya Pradesh Board of Secondary Education	April 2018 - April 2020 Percentage: 91%

TECHNICAL SKILLS

- **Programming Languages:** Java, Python, SQL
- **Core CS:** Data Structures & Algorithms (DSA), OOP, DBMS, Operating Systems, Computer Networks, Cybersecurity
- **Web & Tools:** HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB, API Integration
- **Tools & Platforms:** VS Code, Git/GitHub, AWS, Docker, Linux
- **GenAI:** APIs, Prompt Engineering, AI Workflows, Context Processing

PROJECTS

- **DecisionBot – GenAI-Powered Decision Support System** | [Live Demo](#) April 2025
Designed and developed a GenAI-powered decision support system enabling real-time, context-aware responses using dynamic user inputs. Built a modular backend architecture to support scalable AI pipelines, prompt orchestration, and future fine-tuning extensions.
Implemented backend logic in Python to process dynamic user inputs and generate context-aware outputs efficiently, seamless integration with future AI services.
– **Tech Stack:** Python, FastAPI, React.js, REST APIs, LLM APIs (OpenAI/HuggingFace), Prompt Engineering.
- **TruthLine – Decentralized News Verification** | [Live Demo](#) Aug 2024
Architected a decentralized news verification platform using trust-based scoring and multi-source validation to detect misinformation, preventing data tampering and strengthening system reliability. Designed and developed **high-performance RESTful APIs** using Node.js and Express, ensuring secure and efficient data exchange, integrated **SHA-256 hashing** for content immutability. Enhanced backend efficiency through optimized request handling and concurrency control, improving scalability under load.
– **Tech Stack:** React.js, Node.js, Express.js, MongoDB, REST APIs, SHA-256 Hashing, Trust Scoring System.
- **CloudNotes AWS System** | [Live Demo](#) Aug 2024
Designed and developed a cloud-based note management system enabling secure storage, retrieval, and management of user data across distributed environments. Developed a cloud-based note management system to enable secure, scalable, and efficient data storage and retrieval for users. Built high-performance RESTful APIs using Node.js and Express, ensuring smooth data flow and optimized backend operations. Deployed the application on AWS EC2 and integrated AWS S3 for scalable storage, implementing JWT authentication and RBAC for secure access control and data protection.
– **Tech Stack:** React.js, Node.js, Express.js, MongoDB, AWS EC2, AWS S3, JWT, RBAC

EXPERIENCE

- **Tata Cybersecurity Security Analyst Job Simulation on Forage** | [Link](#) July 9, 2026
Tata
Completed a job simulation involving identity and access management (IAM) for Tata Consultancy Services, collaborating with a Cybersecurity Consulting team.
Optimized data handling and reduced UI latency, resulting in faster load times and improved responsiveness.
Acquired expertise in IAM principles, cybersecurity best practices, and strategic alignment with business objectives.
Delivered comprehensive documentation and presentations, showcasing the ability to communicate complex technical concepts effectively.

ACHIEVEMENTS AND CERTIFICATIONS

Top 40 Teams out of 200 teams at Hackstasy	2025
Smart India Hackathon 2024	Internal Finalist
Cisco Networking Academy	Ethical Hacker Certification
Cybersecurity Skilling Program	IIT Kanpur
Tata Cybersecurity Security Analyst	On Forage
